**Subject** Lick trip: meet at 3:00 pm on Sunday and bring your dinner!  
**Label** Normal

Dear 7A,

To everyone who has signed up for the Lick Observatory Field trip this coming Sunday Sep 23:

We will meet at the base of Evans Hall, near the Hearst Mining Circle, at 3:00 pm.

The drive to the top of Mount Hamilton takes 1.5 to 2 hours. There is a long stretch at the end, up a windy mountain road.

BRING YOUR DINNER! And utensils if needed!

The tour, led by Elinor Gates of the Lick observatory staff, will begin at 5:30 pm at the Observatory.

Let us hope for clear skies so we can look through the 36-inch refractor.

Eugene
